Class Descriptions

Yoga Basics supports students in learning and practicing a variety of foundational yoga poses that can enhance your physical, mental and emotional well-being.

Ashtanga Vinyasa is a fluid, athletic yoga sequence consisting of sun salutations, standing, seated and finishing postures that synchronizes the flow of conscious breath, precise movement, specific gaze points and directed energy. This class is suitable both for students new to the Ashtanga method and established practitioners looking to refresh or refine their knowledge of the method.

Mysore Ashtanga students practice the Ashtanga yoga sequence at their own pace with individual attention from the teacher including hands-on adjustments and verbal cuing. Students may arrive anytime during the class. New students are welcome! For more information email mysore@one-yoga.org.

Gentle Flow helps release stress and tension through conscious breathing, gentle movement, and stretching. This class is appropriate for all ages and abilities, including individuals recovering from injury, illness, or decreased fitness. It is a great option for new students.

Hatha refers to the balancing of our receptive and active energies. This balance is achieved through slow-flowing movement, well-aligned postures, breath work, intentional core engagement and meditation.

Kundalini yoga aims to awaken the divine energy that resides in all of us through pranayama, asana and meditation.

Meditation is the practice of resting into the present moment experience of the body and mind. Meditation fosters joy, tranquility, concentration, and equanimity.

Restorative yoga reduces stress and soothes the nervous system through gentle postures, breathing practices, and meditation.

Vinyasa is a rhythmic practice that energizes the body and quiets the mind by using conscious breath to flow dynamically from posture to posture through a variety of transitional movements. **Vinyasa+** includes intermediate to advanced postures such as binds, arm balances and inversions.

Yin Yoga induces a deeper state of flexibility and awareness through sustained holds, allowing muscles to relax, energy to flow more freely in the body, and the mind to settle. Yin Yoga is an excellent complement to the fundamentally yang nature of more dynamic yoga and other activities.
